SUMMARY

Software Engineer student, passionate about solving problems, creating new things and learning. I also like to be a leader, make decisions but also help and collaborate with other people on the to reach the desired Goals

WORK EXPERIENCE

InovenTI - Software Engineer Intern   **January 2024 - July 2024**

- Developed working solutions in ASP.NET and Javascript, such as new features or fixing bugs.
- I integrated new functional pages inside the web application which were used for monitoring the behaviour of the users with the application

Toshiba Global Commerce Solutions   **July 2024 - Currently**

- Helped in implementing new features to the current web application, specifically on the frontend side.
- Using Vue as the frontend library, i implemented the UI of a chatbot for an internal web application. The feature was tested and worked correctly when it was connected to the API
- Worked on a revamp of the frontend by starting a new Vue project from scratch, connecting it to the API and helping in the deployment with Docker and Azure

EDUCATION

Instituto Tecnológico de Estudios Superiores de Occidente(ITESO)   **Jan 2022 - Currently**

Bachelor in Software Engineering.

- GPA: 3.8
- Expected graduation in Winter 2026

KEY SKILLS

- Languages:
    - HTML
    - CSS
    - Javascript
    - Java
    - Python
    - C#
- Frontend:
    - React / NextJS
    - Vue / NuxtJS
    - Angular
    - Astro
- Backend:
    - NestJS / Express
    - ASP.NET
    - Spring
    - Django

- Databases
    - PostgreSQL
    - Microsoft SQL Server
    - MongoDB
    - MySQL
- Tools
    - Linux
    - Docker
    - Git / Version Control
- Soft Skills
    - Problem Solving
    - Communicative
    - Proactive
    - Passionate about programming
    - Patient
